WILD SCENES IN QUEBEC CITY SOLDIERS KEEP RIOTERS IN CHECK

MARTIAL LAW FOR QUEBEC CITY

NOB ATTACKS DRIFT HALL IN ATTEMPT TO LIBERATE DRAFTSMEN QUARTERED THERE—CHARGED BY CAVALRY—BREAK INTO HARDWARE STORES SEEKING FOR WEAPONS—TWO GIRLS AND A MAN INJURED IN SATURDAY NIGHTS' RIOT AS GEN. LEASARD WILL TAKE COMMAND OF CITY AS MILITARY GOVERNOR—WOUNDED DOMINION POLICEMAN MAY DIE—INTENSE INDIGNATION THROUGHOUT CANADA AT DISGRACEFUL SCENES IN QUEBEC.

Special Despatches to The Intelligence, Canadian Press, Limited.

QUEBEC, April 1.—Since the arrival of troops yesterday morning Quebec city has been quiet. Two girls and a man were injured in the riot Saturday night.

MARTIAL LAW FOR QUEBEC.

OTTAWA, April 1.—The statement it made that martial law will be declared in Quebec today, with General Leasard as military governor.

INSOLENCE OF LAVERGNE.

QUEBEC, April 1.—Peace has been restored in this city, at least temporarily. The actual element which has been creating trouble here has accepted an assurance given by them by Almond Lavergne, Nationalist politician, that if they desire to be free from attacks by the military they must not disturb the peace. Lavergne has also given the military authorities to understand that patrol of streets by outside battalions should cease, as these military demonstrations antagonize the people.

SOME SHOOTING AT QUEBEC.

QUEBEC, March 31.—Shooting has started in this city, and there is a list of casualties. Two young girls and a young man are civilian victims. The military are mounting Lewis machine guns at different strategic positions.

Raidings of hardware stores on the part of the mob started this morning. The military followed these attempts on the part of the mob by clearing the firearms and ammunition out of the stores themselves.

CROWD MENUS ORGANIZED.

The crowd tonight is working in bunches of about 1,000 each, and apparently under some system of direction. Of each mob unit the greater portion is composed of youngsters, but while these are mostly to be feared because of their stone and ice throwing ability, there are older people in the crowd who are more dangerous.

OTTAWA, April 1.—The report of the Ottawa authorities, about 1,000 retroactive troops left on Tuesday Saturday and Sunday to take part in clearing the situation in Quebec, was confirmed by the military staff here. Most of the troops who went from Toronto were infantrymen from the 1st and 2nd Battalions of the 1st Central Ontario Regiment, Battalion Camp. There were also detachments from the machine gun section of the Canadian Dragoons and the Army Medical Corps. The soldiers went out on Saturday were commanded by Major Mitchell. Those who went yesterday were commanded by Major McGowan.

At noon, March 31—Bolling continued in this city on Saturday night when the element which appears to be organizing the disturbances, began on Thursday evening to make an attempt to break into the drift hall of the Grand Hotel. The intention of the rioters was, it is rumored, to liberate the draftsmen there. The attempt failed, as the building was protected by a number of soldiers who were ordered to resist the attack and, with the help of mounted troops, broke up the mob. No shooting took place. It was known late Sunday night that the officers commanding the military and infantry detachments sent out last night to disperse the mob attacking the drift hall, were killed. The soldiers were shot and wounded. Lieutenant McManis of the 1st Central Ontario Regiment, a soldier who formerly belonged to the 1st Battalion, the "Preston Canadian Regiment," which distinguished itself at Verdun, was shot in the chest at Verdun last night, was shot in the chest by a mob of men, and was taken by a mob of men.

Brantford Man Horribly Battered Brother-in-Law Found Wiping Away Blood—Victim Has Little Chance

BRANTFORD, March 31.—Shortly before 7 o'clock this evening people on the main street were startled by the sight of a woman jumping from the second story window at the home at No. 28 to the pavement, calling for help, that her brother was being battered and was in danger of his life. An alarm was raised and on the arrival of the police Alfred Isaac, a local taxi driver, was found in company with his wife and his brother-in-law, who was being battered. Over him stood George Duncan, his half-brother, wounding the blood. When asked what had happened, Duncan informed the police that Isaac had been hurt outside on the main street. He had been hit by a brick which was thrown from the second story window. The police found Isaac with blood on his face and head, and he was being battered by the police. SPHAGNUM MOSS DRESSINGS FOR WAR PURPOSES

Sphagnum Moss, to which attention has been drawn by the fact that it is the only plant which grows in the same place as the sphagnum moss, is one of the most valuable of natural resources. The great value of sphagnum moss is that it is able to absorb and retain water. It is used in the manufacture of bandages and dressings for war purposes. It is also used in the manufacture of paper and other products.

Developments have been made in the use of sphagnum moss for war purposes. The demand for dressings has increased so much that the British Red Cross has been forced to turn to the sphagnum moss industry. The industry is now producing millions of dressings for the war effort. The sphagnum moss is harvested in the north of Ireland and is then processed into dressings. The dressings are then sent to the front lines to be used by the medical staff.

Special Dispatch to The Intelligence, Canadian Press, Limited.
PARIS, April 5.—The Germans made ten different attacks yesterday with estimated numbers of one hundred thousand men against the French front of nine miles from Grivesnes to the Antenne-Roy road. They succeeded in gaining only a few hundred yards and met with terrible losses.

LONDON, April 5.—The British have been pressed back a short distance on the front east of Amiens to positions east of Villers-Bretonneux, the War Office announces.

The German mechanized troops early this morning near Albert, but the British artillery took them under its fire.

In the neighborhood of Buquigny and the Scarpe valley there was active artillery fighting during the night.

The Germans hurled large bodies of troops against the British position between the Scarpe and Somme rivers, making repeated assaults.

For the most part the enemy was thrown back with heavy losses.

After several days of comparative inactivity along the British front a fierce, bitter fighting has been resumed along the western sector of the salient in the line of the Extente Affies.

The fighting, according to official reports, has been heaviest in the neighborhood of Hainin, where the British were forced back slightly, and in the triangle formed by the Rivers Luce and Aves, further to the south, where the French were also forced to give ground, but where they retained important battle positions, and also made a successful counter-attack between Lusigny and Montdidier.

The French captured St. Aignan farm, southeast of Grivesnes and held it against all assaults. In the north the French troops withdrew to their position to the west of Cant. They threw back the Germans from Arrier-Corwood, west of Mally-Ramval.

LONDON, April 5.—The Germans this morning attacked the British front on a wide front from Debaucourt, a few miles south of Albert, to Moyenneville, north of the Somme, according to a statement published by the Evening Standard. The chief points of attack, the newspaper says, were Dernaucourt, Mezin, Beaumont-Hamel, Brégnay and Moyenneville. The Germans were repulsed with heavy losses, except at Dernaucourt, where they made a slight gain. There have been no attacks south of the Somme so far today, the statement says.

CANADA HELPING ALLIES TO INCREASE SHIPPING TONNAGE

Shipbuilding has come to stay. New Westminster Construction Co. is a leading and Engineering Company was incorporated on June 13th, 1917, and is now the largest shipbuilding company in the province. Work was started soon after the war broke out in New Westminster. The company is now building four wooden ships. The latest

on the north arm of the Fraser River. The company secured the contract from the Imperial Maritime Board for the building of four wooden ships. The latest

industry sprung to adult proportions in a very short time, and now it employs 500 men, earning a salary of \$75,000 a month.

This payroll has swelled the monthly payroll of the city's ten prominent industries to between \$225,000 and \$275,000. The name of the first of the four vessels to be launched is "War Comet." Its convenient situation and its proximity to the great timber

forests of the province make New Westminster specially adapted for the new sphere of activity on which she has embarked.

to hit that little island again. North Island is by no means small, but from my perch I looked almost insignificant when compared with the great expanse of water around it, and wondered how we could hope of making it and landing in the town.

You really landed plain a wonderful sensation it was to land around us, there like a giant hawk and with a swoop of the eagle's wing and no noise the "vindicator" went crashing down.

"Suddenly, without any warning, he made the machine go down and up then down we were on a perpendicular for a few more, and coming to a halt we stood perpendicular up."

"When he had righted the ship he turned back evidently thinking the life was scared, and said: 'Well, now do you like this?'"

"I really wasn't a bit frightened. It is remarkable how few of us were hurt in the machine and in its ability. I had enjoyed it and couldn't help laughing when we were up and up and then start down steadily and would find myself leaning the way I could hold on by the life belt. It was for all the world like a acrobatic feat; the only difference being that instead of everything else standing still while you move, everything seemed to move while you stayed still. I don't think I shall ever be tired of narrating this incident."

"That's great. Don't again."

Doom of Prussianism Sealed As Allies Win This Battle

Said Premier Lloyd George in British Parliament, But Allies Will Fight on Even if This Colossal Battle Goes Against Them

Special Dispatch to The Intelligence, Canadian Press, Limited.
LONDON, April 10.—"If by any chance this colossal battle went against us, I do not say the war would be over any more than it was when Great Britain fought against another attempt at military domination, when Napoleon, having overthrown the armies of Europe, had the continent at his mercy," declared Premier Lloyd George at the conclusion of his great speech in the British House of Commons yesterday.

"As long as we have a ship-aft that we can't accept, a German peace. But if the battle is won, as I believe it will be, the doom of Prussianism is sealed. The enemy has attained at the height of his strength. We have been defeated by one powerful ally, but another and more powerful ally is not yet ready to put forth one-tenth of his might."

A SOLDIER OF THE SKY

Flight Lieut. Harold Mackenzie Reid, Died at Barchurch, England February 23, 1916 Laid at Rest at Belleville, April 9, 1916

Open wide, ye gates of Heaven; you wide and high; Sound a salute, O trumpets, to him laid at rest. The spirit seeking entrance as a soldier of the sky.

The stars have watched his marries till the night and morning dawn. The eagles caught his flapping flag till feathered wings were spent. The ocean was the mirror and the thunderbolt his tent.

High above the plucking armies he battled in the sky. With a million men of courage he fought the foe. Yet a cavalier's compassion for the men he met and slew.

He has left his place behind him—his life no longer hums About its dither passage like the thrumming of the drum; Open broadly, gates of Heaven—an aviator comes.

FLIGHT LIEUT. HAROLD MACKENZIE REID

Died at Barchurch, England, February 23, 1916. Laid at Rest at Belleville, April 9, 1916.

These words should meet rest in ability to suffer one judgment day when the story of their heroism was so unfolded to all who have been loved by their sacrifice.

One glimpse we have of Harold Reid, these thrilling acts of gallantry in which he served amidst the dangers of the battlefield. On one occasion he was forced to land through injury to his machine, probably from enemy action, and his machine came to rest on a hill. Harold's plane was damaged. He was at the wheel of the machine which had been wrecked by the enemy, but had just recently been captured by the French. St. Wladimir has been a distinct disappointment to his followers and admirers. Even now he will not admit that he was wrong in his opposition to conscription and that policy of voluntary recruiting and coeducation. Instead of helping to lay the nation to rest in the Military Service Act as applied to Quebec, he persists in allying to the Military Service Act as applied to Quebec.

THE FOOD LINE

The plan of the Organization of Resources Committee of the Ontario Government to secure the national campaign for increased production has been more successful, more than eighteen thousand 'ten age boys having already agreed to engage in farm work after April 30. Last season the experiment of Boy Labor was first tried on a considerable scale and the experiment was so successful that the farmers this season are anxious to secure as many boys as possible for longer terms of their vacation in 'de' their 'for' King and Country.

USEFUL OCCUPATIONS

There is no need for worry, but there is great need for seriousness about the war, says the Toronto World. General Foch and General plans made. The German army is not a military force as they are not to convince the world they were, nor are they brave and have been the boys who fight under the allied flags. Our only weakness is that we have more men than we can get up to fully realize the overwhelming crisis that faces the whole world.

CRISP COMMENT

It may appear that the approaching visit of Mrs. Wicks of the Cabinet has something to do with the increased Production Campaign. There will now be a general invitation to "come out in the back yard and do your best."

ADVERTISE IN THE INTELLIGENCER

Canada is Playing a Magnificent Part In the War

War Has Cost to Date \$1,352,227,755 and 100,000 Casualties—5,000 in the Flying Corps—Five Hundred Million Dollars More to Win the War

OTTAWA, April 12.—The task of Canada's minister of finance in the present conflict of nations is told in the great mass of figures with which Sir Robert Borden introduced the discussion of the Dominion's 1918 appropriation bill in Committee of the Whole in the Commons. The minister stated that the Dominion's share of the war is a share of the financial burden of the struggle. To the end of the fiscal year 1917-18 Canada's war expenditures at home and abroad so far as it has to date been reported amounted to \$83,535,000. To that will be added the disbursements for the present year as estimated, \$12,577,000, making a total of \$96,112,000. The minister pointed out, however, that war does not represent all the expenditures of the period inasmuch as the large amounts laid out in Great Britain have not yet been reported and are included in the estimate.

CANADA'S WAR BILL

The vote of \$200,000,000 provided for in the bill, before the House last night, will not only cover the military and naval services, but it is also drawn upon by other departments of the government for the war service, directly attributable to the war. The expenditure of the Department of Militia and Defence this year, it is estimated, reaches \$115,000,000, of which \$12,500,000 will go to Canada and \$102,500,000 to the United States. The estimate also shows that the total of Canadian expenditures since the beginning of hostilities will this year reach 200,000, including 100,000 free drafts under the Military Service Act and 100,000 under the 10,000 men in England 100,000 men and in France 100,000 men. The large items to be met include \$100,000,000 to pay 110,000 troops in Canada and 20,000 abroad; the total paid in Canada will be \$50,147,500, of that amount will be \$12,512,500. For the maintenance of troops in France at the rate of 2 shillings and 4 pence per man per day, the total paid in Canada will be required for the entire year of 100,000 troops \$2,000,000, for separate allowance payable in Canada \$2,125,000 and for those payable in England \$6,000,000. To provide for the salaries for soldiers in Canada \$20,000,000 will be required, and for food for men in England \$21,000,000. Clothing will cost \$10,000,000; equipment, not including arms, \$20,000,000; ammunition \$20,000,000; machine-guns, \$2,000,000; and other war material, \$15,000,000.

TO AID SUPPLYING

From the half-million-dollar appropriation will also be paid out \$10,000,000 for naval defence, \$3,125,000 for the Department of Marine and Fisheries largely in carry on the Government's shipbuilding programme, and \$3,000,000 for the Public Works Department to meet the cost of buildings required for the military service and to repair Government buildings which were damaged by the explosion of the Mont Blanc at Halifax.

Several important and interesting announcements were made by Hon. S. C. Mcleod during his address. The information with respect to the organization and training of the military forces, and to repair Government buildings which were damaged by the explosion of the Mont Blanc at Halifax. Several important and interesting announcements were made by Hon. S. C. Mcleod during his address. The information with respect to the organization and training of the military forces, and to repair Government buildings which were damaged by the explosion of the Mont Blanc at Halifax.

TRANSPORT HANDSHIPS

Speaking of the complete list of handships reduced by extending soldiers on vessels used as transport, Gen. Mcleod said that the Canadian Government had not heretofore been able to charter vessels for use as transport ships. He hoped, however, that it would be possible to charter ships and bring the troops back to Canada as troops and not in company with civilians.

It is, in this way, believed, partly because of the conditions in which soldiers had been subjected would be avoided. The Minister made another important announcement, in reply to a question, as to the amount of claims outstanding for the war service, that the amount of such claims now exceeds \$100,000,000. The sum would, he said, for the present be charged to a suspense account, and he stated that claims would be put on the ground of opposing persons to whom the refunding of the money would bring hardship. It would be impossible, however, to make that action retroactive.

The Minister of Militia spoke a word on behalf of "surplus" officers who have been forced to return to Canada because employment could not be found at the front, spoke of the influence of peace in the United States through the British-Canadian Recruiting Service, and said that the House of Commons had authorized 100,000 men to the Royal Flying Corps, in connection with the enlistment of officers he expressed the opinion that would be the present time for a suitable bill for Canada to undertake the establishment of a flying corps of war.

U.S. Submarine Crossed Atlantic In Awful Weather

WASHINGTON, April 12.—In the face of bitter winter rains, American submarines, primarily designed for operations on the Atlantic coast, have crossed the Atlantic to engage in the common foe against German U-boats. They are now sailing Allied naval forces, as are American destroyers and gunboats, and they have been in the war zone for some months. The Secretary of the Navy, Mr. Daniels, revealed the fact that the submarine had "gone over there" in his address at Cleveland last Saturday at night. It is now possible, he said, that the submarine had crossed the Atlantic last Saturday at night. It is now possible, he said, that the submarine had crossed the Atlantic last Saturday at night. It is now possible, he said, that the submarine had crossed the Atlantic last Saturday at night.

The navy had some experience with long distance work with submarines on which to draw. Boats have been sent to the Philippines, to Hawaii and to Panama, but always in mild seasons of the year and with plenty of time for precautionary steps. This time, however, they were to go in winter, and in terrible weather, with the Atlantic in its full flood. The three ships in the fleet were not to be deterred by the fact that the Department has no doubt to record is pointed to as proof of their audacity.

Officers and men of the submarines faced hard days as they put out. Cramped in narrow quarters and with storms in prospect, they started out with a complete confidence in themselves and their boats. A hard day's work of unexpected voyages bore out that confidence.

Dramatic Ocean Greeting

THOUGH a mere land lubber, his children ask, "Father, what did you do in the great war," he will point with pride to the glass-encased collar and say, "Son, that was my collar, worn by Capt. Kendall, of Dr. Crippen and decided to follow the footsteps of 'Empress of Ireland' fame, whom I helped to save from a watery grave when the 'Calgarion' went down in March, 1915."

Captain Kendall, by the way, has had many adventurous experiences since the war broke out—on the English Channel dodging submarines while he brought across refugees to England from the 'Cal' (Holland) in the North Sea on a ship—perhaps the most dangerous of her boats with survivors, gross service of all—and sure recently in transport work, such as that which culminated in the navigating officer, and a heavy affair of the 'Calgarion.' At present he is saying nothing, remembering the warning of John-erwhile C. F. R. "Round the world rate expert" which resulted in the latter losing the former a clean collar on the understanding that it would be returned to him, so that when in the days to come

Intervention of Foch's Men is Imminent in Paris View

He Has at His Disposal a Wealth of Supplies in Men, Guns, and Material—Germans Expect Counter Stroke and are Puzzled

PARIS, April 15.—What will Gen. Foch do? This is the question which is the subject of intense interest here as the great battle develops from day to day. That Foch has the situation perfectly well in hand, and will move or move at a very definite and effective manner, no one has the slightest doubt, and there is every confidence in his ability and sound judgment. And the confidence continues to grow, despite the heavy losses on the part of the French, and the many attempts to find a way out of the situation.

The people are comparing Foch's attitude at the present moment with that of Joffre during the last war, which resulted in a crushing victory at the Marne, but it is pointed out that the allied position now is infinitely more favorable than before the Marne. New Call For Men Tuesday—Report That All Unarmed Men of 19 Up to 34 Years Will Be Summoned—Short Debate in Parliament

OTTAWA, April 19.—The attitude of the opposition to the government's new military service policy is well known. Sir Laurier held a long interview with the "House of Commons" in any event, the Government has a majority in both houses, and the party to lead is unanimously behind the government in its new proposal. It is considered probable that an amendment will be made to exclude those late farmers from the workings of the new proposal.

Action Will Be Prompt.
 The government proposes in any case to bring the debate to a close on Monday, and immediately thereafter the proclamation will be issued calling the men to the colors. The debate between the sexes of 30 and 34 inclusive.

Of the total of those, only one who will be excluded from the act, in-

What Gipsy Smith Saw At The Front

Olive Smith has been through four gas attacks; he has been three times in the front line, and has seen the King of England as he has done in keeping up the spirit of his men. He is in America for a short time, making a tour of the campaign to talk on tanks just behind the front line.

"Allies and British are no closer to Germany than in November, 1918," he has been told. "The Germans are no closer to the front line than in November, 1918," he has been told. "The Germans are no closer to the front line than in November, 1918," he has been told.

THE NIGHT BUT BRITISH TROOPS WERE AGGRESSIVE AND CAPTURED PRISONERS AND MACHINE GUNS—FRENCH OFFENSIVE RESULTS IN CAPTURE OF 650 PRISONERS WITH TWENTY OFFICERS UP TO THIS MORNING.

Special Despatches to The Intelligence, Canadian Press, Limited.
 LONDON, April 19.—The French have begun an offensive in the Amiens area. French troops have also joined the British to help in the battle of Lys.

BRITISH LINE HOLDS FAST.
 LONDON, April 19.—The British line on the western front has been practically unchanged for three days.

ENEMY ATTACKS REPULSED.
 LONDON, April 19.—Enemy attacks on the British line in the northern part of the Lys battle area, south of Kemmel, were successfully repulsed, the war office announced today.

REIMS IN RUINS.
 PARIS, April 19.—Reims, which has been on fire for a week, is now nothing but a great pile of smoking ruins. During the past week the Germans have fired more than one hundred thousand shells into the heart of the city. Flames from the buildings can be seen by aviators.

BRITISH TAKE PRISONERS AND GUNS.
 LONDON, April 19.—There was no change in the situation along the entire British front during the night, which passed in comparative quiet with the exception of artillery activity on both sides. The attack against the line in the Kemmel sector, the repulse of which was reported today, took place yesterday morning. In minor enterprises at various points during the night British troops captured a few prisoners and some machine guns.

FRENCH CAPTURE 650 PRISONERS.
 PARIS, April 19.—(Official)—There was rather a violent bombardment by both of the opposing armies along the battle front from Cassel to Maltz-Reinval. During the night the French reduced certain machine gun positions on the front of attack yesterday. The number of prisoners taken by us has reached 650, of whom 20 are officers. North of Beaumont, on the Verdun front, we carried out a successful raid and brought back prisoners. Elsewhere on the front there was intermittent cannonading.

RUN TROOPS EXHAUSTED.
 With the British Army in France, April 19.—Exhausted by the fall-out of yesterday's heavy attacks on the Giverny-La Bassée canal front, the Germans made no further move during the night, and on the greatest part of the Flanders battle front quiet prevailed this morning.

The British re-established their line west of Rebecq on the south-western part of the Lys battlefield by recapturing ground at Riet di Vinage farm.

Kemmel Hill, on the northern side of the battle area was still being heavily bombarded this morning in preparation evidently for fresh assaults by the Germans.

THE KASHER RUMINATOR

David Sholem Only Once As He Had
Viewing the Battlefields.

AMSTERDAM, April 18.—Emperor William recently made a visit to the battlefield near Ypres, west of Canada, a war correspondent of the Berlin Lokal Anzeiger writes.

"His Majesty's staidness was broken only once," he wrote, "when he returned to an officer who stood beside him and said: 'You are not a Jew, but you are a German, and you are a man who serves the world from these horrid wars!'"

Appreciated for its friendly spirit as much as for the interest shown in the Jewish people.

Hannah writes as follows:

Dear Editor, Belleville Intel Center.

Being a constant reader of your valuable paper, also one of your faithful subscribers, I am, considered of an expert at catching fads, so you often tell us to eat all we can, and that we won't eat any and now this great daylight saving problem is before us—from your great fund of knowledge you furnish us Hannahs with a recipe to can daylight.

Yours truly,

ONE OF THE HANNAHS.

No, Hannah, I have no recipe handy for canning daylight; else I would save a bunch of money from my "midnight oil" bill. The suggestion is a good one, but perhaps none of our scientists can improve on Daylight Saving by a system of sunbeams and the method of buying a can of pork and beans next winter we will be able, perhaps, to buy a can or two of dancing sausages to "brighten up the general."

Jack London gave "Burning Daylight" to the world of fiction; the Government has given us Daylight-Saving with more or less friction—this phase act on Hannah's suggestion and give us Canned Daylight?

Just now we are all rather busy cussing the Kaiser.

CRISP COMMENT

The Boy Roper yesterday yelled: "How to business laws take."

The Kaiser may find it extremely difficult getting his arm out of the hole he has pushed them into.

Just a little touch of winter, we appreciate the blanch of late weather we have coming to us.

'Tis the voice of the slayer!—Lower him, complain, this Daylight-Saving stunt gives me a pain—Will's apostrophe to Isaac Watts.

At the last battle of the war, soldiers to leave in Quebec the language spoken was English; but now, when the war is over, they will disappear in a bold rush to get under the British flag.

Bob Pauls sacrificed his patriotism for self and met a tailor's fate during a brief engagement, when he could have died gloriously fighting the enemy and been remembered for his glory and honor of France. God will surely, but less honor.

The Germans have sacrificed hundreds of thousands of men in the present offensive and the most they have accomplished of any military importance is the loss of one of our little islands in the middle of many dominating positions held by the Allies. There is a fearful reckoning coming to the Butcher of Belgium.

The Klugean War says that the government is helping to support house-keepers.

The United Government should not be lacking in "yes" for five of our correspondents in the "Ginger" are government officials, and someone is going to insist upon spending the war money. A few more of our correspondents will not hurt the government, especially since Philbin has been the hard shell.

The one lonely note of discord to the Government's determination to meet the German challenge with a speeding up of the Canadian war machine comes from the "Ginger" who writes that the German machine is not working.

The "Irishmen's fight" behind the Hun war machine is making it too hard on the "Ginger" who writes that the German machine is not working and weight and ignorant obedience to military laws differs can not help but interfere with the war.

Three Boys Caught
Looting a Store
One Assaults the Storekeeper,
Hops McGinnis, With Ginger,
Beer Boy

Three lads, the oldest but 14 years of age, appeared this morning before the court to answer a charge, namely that of breaking into the store of Hops McGinnis, grocery store at the corner of Station Street and Canton Road. Not only did the boys, gingerly, forcibly enter the place of business after dark, but when caught they made no attempt to escape, and the youngest, aged 12 years, struck Mr. McGinnis on the head with a brick, causing him to fall. Fortunately the boys did not resist arrest.

At a few minutes after 10 o'clock last evening Mr. and Mrs. Hops McGinnis, who had been attending an entertainment, were proceeding to their home on Beal Street, and had come into the store to get a glass of beer. When they entered the door he heard loud steps the persons hurriedly retreating, and he went out to see what was going on. He was met by a man who was trying to get away. As he reached on the door he was met by a man who was trying to get away. As he reached on the door he was met by a man who was trying to get away.

Three discovered the boys made an attempt to escape by the back door, but they were prevented from doing so. Mr. McGinnis, then the place of the youthful burglar, saw the boys, and he was met by a man who was trying to get away. As he reached on the door he was met by a man who was trying to get away.

British Tanks Crush On, their Guns Deal Death

When the Jagernauts Meet For the German Suffer—British Crews Experienced and Expert in Handling These Modern Vehicles of Effective War

With the British army in France, April 25—thirteen five tanks were employed on each side in the Villers-Bretonneux fighting as a support of the infantry. The crews of the British tanks were experienced in handling their charges and when the tanks met with the enemy they crashed and they were destroyed. Some of the British tanks were destroyed.

Big Guns and Gas Shells.

The attack on the northern tank line came between three and four o'clock this morning, after a heavy bombardment with gas shells which started at 2 a.m. This operation was a continuation of the attacks delivered last night and the night before against the French in the Bretonneux sector. At 7:30 o'clock, last evening the Germans attacked after a heavy bombardment. They succeeded in occupying a section of a front trench for a time, but the French, in a dashy counter-attack, threw the enemy out and completely restored the situation.

Gas Gel In, Then Out.

This action was virtually a duplicate of the enemy attack delivered at the same hour on Thursday night. The Germans then prepared for a short attack and were thrown back by a counter-attack. The British and French artillery carried a heavy toll from the enemy infantry.

During the day the Germans had struck and taken the town and driven about it a salient which cut through the eastern edge of the town of Agincourt.

New Successes For Allies Against the Bulgarian Armies

PARIS, April 25.—The War Office announced in a statement that the British army in the Balkans had achieved a series of successes against the Bulgarian army. The British army had captured a series of villages and had destroyed a number of Bulgarian tanks. The British army had also captured a number of Bulgarian guns and had destroyed a number of Bulgarian aircraft.

Toronto Lad, Son of Soldier Asks Premier to Let Him Fight

OTTAWA, April 25.—The following letter, from a Toronto boy of 16, was read in the House of Commons by the Prime Minister. "That is the spirit of Canada," said Sir Robert Borden. "As long as the spirit remains like that we have nothing to fear for the destinies of our country either in the war or after the war." This is the letter:

Sir Robert Borden, Ottawa, Ont.:

Sir:—I am asking you a favor to help me get into the army.

I am only a boy sixteen years, and want to give my life for my country.

I have tried many times but failed. Why I am asking you is because you are like a King to Canada and I said a word it would help me more than anything.

My dad has been in the front, and now he is back again, and you have taken my brother, and now I am the only one left to do something to gain honor, I am strong and healthy.

I have never had any sickness in my life. I was just reading the paper this morning and saw what you said. "Canadians must hold the line." They cannot do it without me. Please, will you give me a position in that line? I don't call myself a man, but I might help to hold that line. So please give me a chance, the line is more valuable than my life."

No Exemption for Farmers Says Canada War Minister

Teils Exemption Be Want' Open Door Again to Appeals— There Seems Little Chance of Any Revision of the Military Service Act Order

OTTAWA, April 27.—Rural Canada is not taking kindly to the new military service order of the Government. It is a matter of fact that the correspondence addressed to many of the farmers in the House this morning is made up of requests for later consideration of the exemption of the farmers from the provisions of the military service act. The House has been in session since 10 o'clock this morning and the correspondence has been in the hands of the members for some time. The House has been in session since 10 o'clock this morning and the correspondence has been in the hands of the members for some time.

Yesterday the Eastern Townships committee a formidable delegation, headed by R. N. Wood, the most noted stock breeder of Canada, and consulting on the personnel many prominent farmers and dairymen. These men requested that it exempt many of the farmers from the provisions of the military service act. The House has been in session since 10 o'clock this morning and the correspondence has been in the hands of the members for some time.

Modern Turn Over Delegation. The delegation received little satisfaction at the hands of the ministers. The members pointed out the urgent need of men. He indicated that to open the door to exemptions of any kind would be tantamount to inviting back all the claims of military service. He indicated that there would be hardship in this case, but that hardship at the present time is not so great.

BEST IN THE LONG RUN The Password for Tires

CHALLENGE every tire before you buy. Make it give the watchword of tire quality, **Tested**. Make it show the conservatism of tire supremacy, the Goodrich trademark. If it swears "Goodrich Tires," buy it. It is a friend.

It will give you full and lasting service because its service, put to the nation-wide road test of Goodrich Test Car Fleets, has measured up to the Goodrich standard of tire, the **Tested of**.

GOODRICH **TESTED TIRES**

There is no risk with the tire that can give the password **TESTED**, for no weakness, no structural failing could hide itself during the month to month, season to season, testing of the Test Car Fleets.

SILVERTOWN CORDS, and **BLACK SAFETY TREADS**, challenged the roughest roads, and under light and heavy cars fought sand, gravel, and rock, in rain, mud, snow, and slush, and defeated them. The spiral-wrapped, cable-core tire body stood staunch against the hammering of miniature trails. The close-ditch, cross-barred, non-skid black safety tread, buffed the teeth of all roads.

Demand the password of all tire before you buy, and you will get the durability, dependability, and economy of this tire which the roads of every region of the land proclaim, "Canada's Tested Tires."

Munitions For '18 **Can't Impair '19**

And Winston Churchill Adds: "Women Make Nineteenth of Shell Output"

LONDON, April 27.—Speaking in the House of Commons yesterday, Winston Churchill said: "Given loyal support by the workers, we are so through the 1918 fight on the ground side without breaking into the 1919 requirements, the military side."

"At the end of last week, all the British munition houses of the present battle had been made good."

Mr. Churchill said that airplanes were being produced more rapidly than trained pilots were; and that every tank had been replaced by a new and better one.

"We are now making more airplanes in a week than during the whole of 1917, more in a quarter than during the whole of 1916, and our output in 1918 will be many times that of 1916."

Women are making nine-tenths of our output of shells."

New York, April 27.—In one of the theatres here \$1,000,000 worth of Liberty bonds were sold between acts at last night's showing from the New York variety show, known as "The Star of the Theatre," and sung for the audience. U. S. TRANSPORTS ESCAPE SUBS.

ANGLON, April 27.—The Germans are not making American transport ships because they are so well equipped that submarine attacks are either impossible or extremely hazardous. Capt. Koller, writing in the *Los Angeles Times*, says, the aim of submarine warfare can be obtained in sinking other transporters.

U. S. HOLLAND PACT COMING

Washington, April 27.—Diplomats are under way between the Government and Holland, looking toward an increase of shipping and supplies allowed in connection with the American supplies of Dutch shipping. The State Department and War Trade Board are inclined to increase the allowance if a day can be found, though this is not certain thus far.

That Eight Dollar U. S. Head Tax

The old one, regarding head tax passing in and out of the United States is a subject of discussion, and another circular has been issued by the United States Department of Immigration. Ticket agents at certain points in Canada and conductors on Canadian railways running to the United States are empowered to issue leaflets and collect it for each certificate issued. This will lessen the delay to travellers and avoid a good deal of inconvenience. Passengers entering the United States for a temporary stay, according to the new order, will be facilitated in the refunding of the head tax. They will be furnished with an alien head tax refund certificate, which is issued by the United States Immigration Inspector, who in exchange issues a form which the passenger retains. Upon returning from the United States the passenger must have the United States Immigration Inspector, train conductor, or ship purser, by which he leaves the United States, certify that they have duly returned Canadian territory. In the case of travellers leaving by ocean steamers from the ports of Montreal, Boston, Halifax, New Orleans, New York, Philadelphia, Portland, Quebec, San Francisco, Seattle, St. John, Vancouver, or Victoria, immediate refund will be made. To obtain the refund in all other cases the certificate must be presented to the railway or steamship agent at the line over which the passenger travelled.

The Story of Moose Jaw

Every city of Western Canada has its own interesting history and legend, but none more so than Moose Jaw.

No other centre of population got its name in such a queer way. The story came from the Indians that over half a century ago a pioneer traveller, Lord Dunsmore, with his wife and child, camped on the banks of the stream now known as Thunder Creek. They were halted on their march because their little river cart had broken down. The old vehicle, with only two wheels that are minus iron rims, the house-made were the cars, and many a record, has been left of other travellers over the plains.

Situated close to the heart of the Province of Saskatchewan, Moose Jaw occupies a favorable commercial position. The city is built on one of the greatest wheat-growing belts in the world. It is developing rapidly and has many fine buildings and twelve churches. The latest census of the C. P. R. in terms of the city is about 50,000. The cars there having 50,000 miles of track.
